International Tax Update Webinar

Presenter: Franz Schweiger

Franz Schweiger is Managing Partner in Vienna for BF Consulting, specializing in international tax law and corporate finance, with particular emphasis on mergers & acquisitions, start-up, purchase and selling of business enterprises, equity financing and corporate reorganization. Franz is a founding member of Integra International and president of the European Section of the organization.

Integra's second webinar will cover the highlights from the Tax Workshop in Malta

EXIT TAXATION: an important topic for all members who advise international clients. Cross border taxation becomes more and more an issue because of a closer cooperation of tax departments within the OECD member states and G20 countries. The new challenge for our clients and their advisers will be the cross border exchange of information between the fiscal authorities, starting with the year 2017. Therefore, a regular exchange of knowledge and practical experiences between the Integra members is very important.

Join in for this webinar if you were not able to participate in the 2018 Integra International Tax Conference in Malta.

Questions will be taken throughout the presentation and slides will be available to participants.
2 Hours CPE.
